

CANADA-UNDP
Climate Change Adaptation Facility

ADDRESSING THE CONTEXT

GENDER-RESPONSIVE ADAPTATION APPROACHES UNDER THE CANADA-UNDP CLIMATE CHANGE ADAPTATION FACILITY (CCAF)

ADAPTATION STRATEGIES ARE DESIGNED TO RESPOND TO THE GENDER-RELATED CONTEXT

The CCAF portfolio is implementing gender-responsive approaches that address vulnerabilities while also empower women as drivers of adaptation. Each project is working to address specific elements of the gender-related country context, including role and responsibility, access to resources, knowledge and capacity, as well as establishing an enabling environment for change.

ENABLING ENVIRONMENT
Awareness raising activities on the impacts of climate change on men and women

HAITI

RESOURCES PROVIDED

- Improved stoves
- Arable lands, agricultural inputs

KNOWLEDGE DISSEMINATED

- Decision making power
- Knowledge of adaptive practices

CAPACITY DEVELOPED

- Training in impacts of climate change on men and women
- Decision making power

PROJECT ACTIVITIES

- ESTABLISH WATERSHED MANAGEMENT COMMITTEES WITH EQUAL PARTICIPATION
- ESTABLISHING FARM PLANS WITH HOUSEHOLDS - 30% WOMEN-HEADED
- REFORESTATION OF WATERSHEDS AND COASTAL AREAS

LEGEND

	Improved stoves		Farming market crops
	Small trading activities		Rear livestock
	Vaccinations for livestock and new resilient breeds		Arable lands, agricultural inputs

LEGEND

	Water		Renewable sources of energy
	Economic power		Decision making power
	Knowledge of natural resource management		Knowledge of adaptive practices
	Social networks for sharing information		Training in impacts of climate change on men and women

CABO VERDE

RESOURCES PROVIDED

- Water
- Renewable sources of energy

KNOWLEDGE DISSEMINATED

- Decision making power
- Knowledge of adaptive practices

CAPACITY DEVELOPED

- Training in impacts of climate change on men and women
- Decision making power

PROJECT ACTIVITIES

- INTRODUCE RESILIENT WATER MANAGEMENT PRACTICES AND INFRASTRUCTURE
- INTRODUCE CLIMATE-RESILIENT CROPS

ENABLING ENVIRONMENT
Awareness raising radio programmes on climate change and food security

ENABLING ENVIRONMENT
Training NGOs and CBOs on identifying gender related vulnerabilities and how to develop gender appropriate responses

MALI

RESOURCES PROVIDED

- Water
- Renewable sources of energy
- Improved stoves
- Arable lands, agricultural inputs

KNOWLEDGE DISSEMINATED

- Decision making power
- Knowledge of adaptive practices

CAPACITY DEVELOPED

- Training in impacts of climate change on men and women
- Decision making power

PROJECT ACTIVITIES

- STRENGTHEN RESILIENCE OF AGRICULTURAL ACTIVITIES FOR WOMEN'S GROUPS
- INCREASE ACCESS TO AND RESILIENT MANAGEMENT OF WATER
- STRENGTHEN LIVESTOCK PRODUCTION

NIGER

RESOURCES PROVIDED

- Water
- Renewable sources of energy
- Improved stoves
- Arable lands, agricultural inputs

KNOWLEDGE DISSEMINATED

- Decision making power
- Knowledge of adaptive practices

CAPACITY DEVELOPED

- Training in impacts of climate change on men and women
- Decision making power

PROJECT ACTIVITIES

- GARDENING, AGRICULTURAL PROCESSING, SEWING AND LIVESTOCK FATTENING (80% BENEFICIARIES WOMEN)
- MULTIPLICATION OF RESILIENT SEEDS
- INCREASED ACCESS TO DRINKING WATER

ENABLING ENVIRONMENT
Committees organized for management of activities (1/3 of members women)

ENABLING ENVIRONMENT
Women's active participation and awareness campaigns about climate change

SUDAN

RESOURCES PROVIDED

- Water
- Renewable sources of energy
- Improved stoves
- Arable lands, agricultural inputs

KNOWLEDGE DISSEMINATED

- Decision making power
- Knowledge of adaptive practices

CAPACITY DEVELOPED

- Training in impacts of climate change on men and women
- Decision making power

PROJECT ACTIVITIES

- IMPROVE ACCESS TO WATER AND WATER HARVESTING STRUCTURES
- INTRODUCE ALTERNATIVE CROPPING STRATEGIES
- IMPROVE RESILIENT RANGELAND MANAGEMENT
- INTRODUCE STOVES TO REDUCE BURDEN OF DOMESTIC ACTIVITIES

CAMBODIA

RESOURCES PROVIDED

- Water
- Renewable sources of energy
- Improved stoves
- Arable lands, agricultural inputs

KNOWLEDGE DISSEMINATED

- Decision making power
- Knowledge of adaptive practices

CAPACITY DEVELOPED

- Training in impacts of climate change on men and women
- Decision making power

PROJECT ACTIVITIES

- STRENGTHEN RESILIENT MANAGEMENT OF WATER USE AND INFRASTRUCTURE
- STRENGTHEN AGRICULTURAL PRODUCTIVITY AND RESILIENCE

ENABLING ENVIRONMENT
Establishment of Gender Action Plan and informed the national Gender and Climate Strategy.

Empowered lives. Resilient nations.
