

CBA Case Study and Sector Selection: criteria, data and linkages with decision-making processes

Core Criteria

1. Policy question

- Further evidence or information needed to support decisions
- On-going projects

2. Timeline for answering question aligns with P-CBA

- June 2014 to March 2015
- Flexibility for officials to do work amongst other competing priorities

3. Officials interested and available

1. At least 1 official with an economics or similar background per case study
2. Other technical officials to make-up multi-disciplinary team

Other considerations

4. Data (for detailed quantitative analysis)
 - background studies available (or planned) that can input to CBA
 - more time needed if primary data generation required
5. Project/program funding available to support technical backstopping
