

Tanzania Country Poster

COMMON CHALLENGES

1. Calibration of meteorological instruments including AWS
2. Telecommunication
3. Communication of met information
4. Coverage of met stations
5. Interpretation of met information by end users

BETTER APPLICABILITY OF STRATEGIES

1. Regional training approach of technicians for maintenance of equipment (calibration)
2. Legal framework for cost recovery

RECENT STUDIES WHICH HAS INFORMED DECISION MAKING

1. Use of climate information for promoting climate change adaptation
 - dry lands of Morogoro, Longido, Ngongoro
 - Improved agricultural practices
