

**Project Title:** Climate Resilient Access to Drinking Water for the Maroon Community of Nw. Lombé, Brokopondo Project

**Country:** Suriname

**Responsible Organization:** Ministry of Natural Resources

**Proposed Budget (USD):** JCCCP Grant Funding: \$108,200  
In Kind Contributions: \$24,000  
Total Budget: \$132,200

## Project Objective

The objectives of the Project are to:

- Achieve 100% access to clean water
- Enhance water storage capacity to overcome water shortage in dry and rainy seasons and institutionalize monitoring framework in place to meet its quality standards and
- Contribute to increase women's social and productive activities by reducing their time in collecting water from a remote area.

## Selected Focal Areas

This project will incorporate the following focal areas identified under Outcome 2 of J-CCCP:

- Water Resource Management

## Targeted Stakeholder Groups

- The Maroon community of Nw. Lombe

## Project Activities

The project will construct a purification system to be connected on an already existing new distribution network for drinking water in Nw. Lombe. To feed this system, a new well will be drilled at approximately 15m depth.
