Expanding the Ongoing Support to Least Developed Countries (LDCs) with country-driven processes to advance National Adaptation Plans (NAPs)

Overall objectives:

to support the NAP process in LDCs which could facilitate financial and technical support to LDCs.

to contributes directly to the achievement of SDG 13, the GEF6/LDCF programming strategy for adaptation and gender equality objectives.

Specific Objectives

1. Enhance technical capacities in understanding how to apply different tools at different stage of developing an implementable & country-owned NAPs : climate rationale tools, appraisal & prioritization tools and project development tools.
2. Strengthen south-south cooperation: exchange experience and cooperative action on adaptation and knowledge transfer

NAP Technical Guidelines

STEP	Key Questions	Indicative activities
B3 - Reviewing and appraising adaptation options	<ul style="list-style-type: none">• What are the costs and benefits of each adaptation option?• How best can the adaptation options be implemented, and what are the conditions for success?• Is it possible to identify co-benefits between the adaptation options and development?	a. Appraise individual adaptation options, including economic, ecosystems and social costs and benefits, and possibilities for unintended (positive and negative) impacts of adaptation measures

NAP Technical Guidelines

STEP	Key Questions	Indicative activities
C1 – prioritizing climate change adaptation in national planning	<ul style="list-style-type: none">• How can adaptation work best be prioritized for implementation at the national level considering development needs, climate vulnerabilities and risks as well as existing plans?• What criteria can be used to define priority actions ?	<ol style="list-style-type: none">a. Define national criteria for prioritizing implementation based inter alia, on development needs, climate vulnerability and risk and existing plansb. Identify opportunities for building on and complementing existing adaptation activities
