

Mr. Motsomi Maletjane

Team Leader, LDC Unit

NAPs and Policy Adaptation Programme

UNFCCC Secretariat

E-mail: mmaletjane@unfccc.int

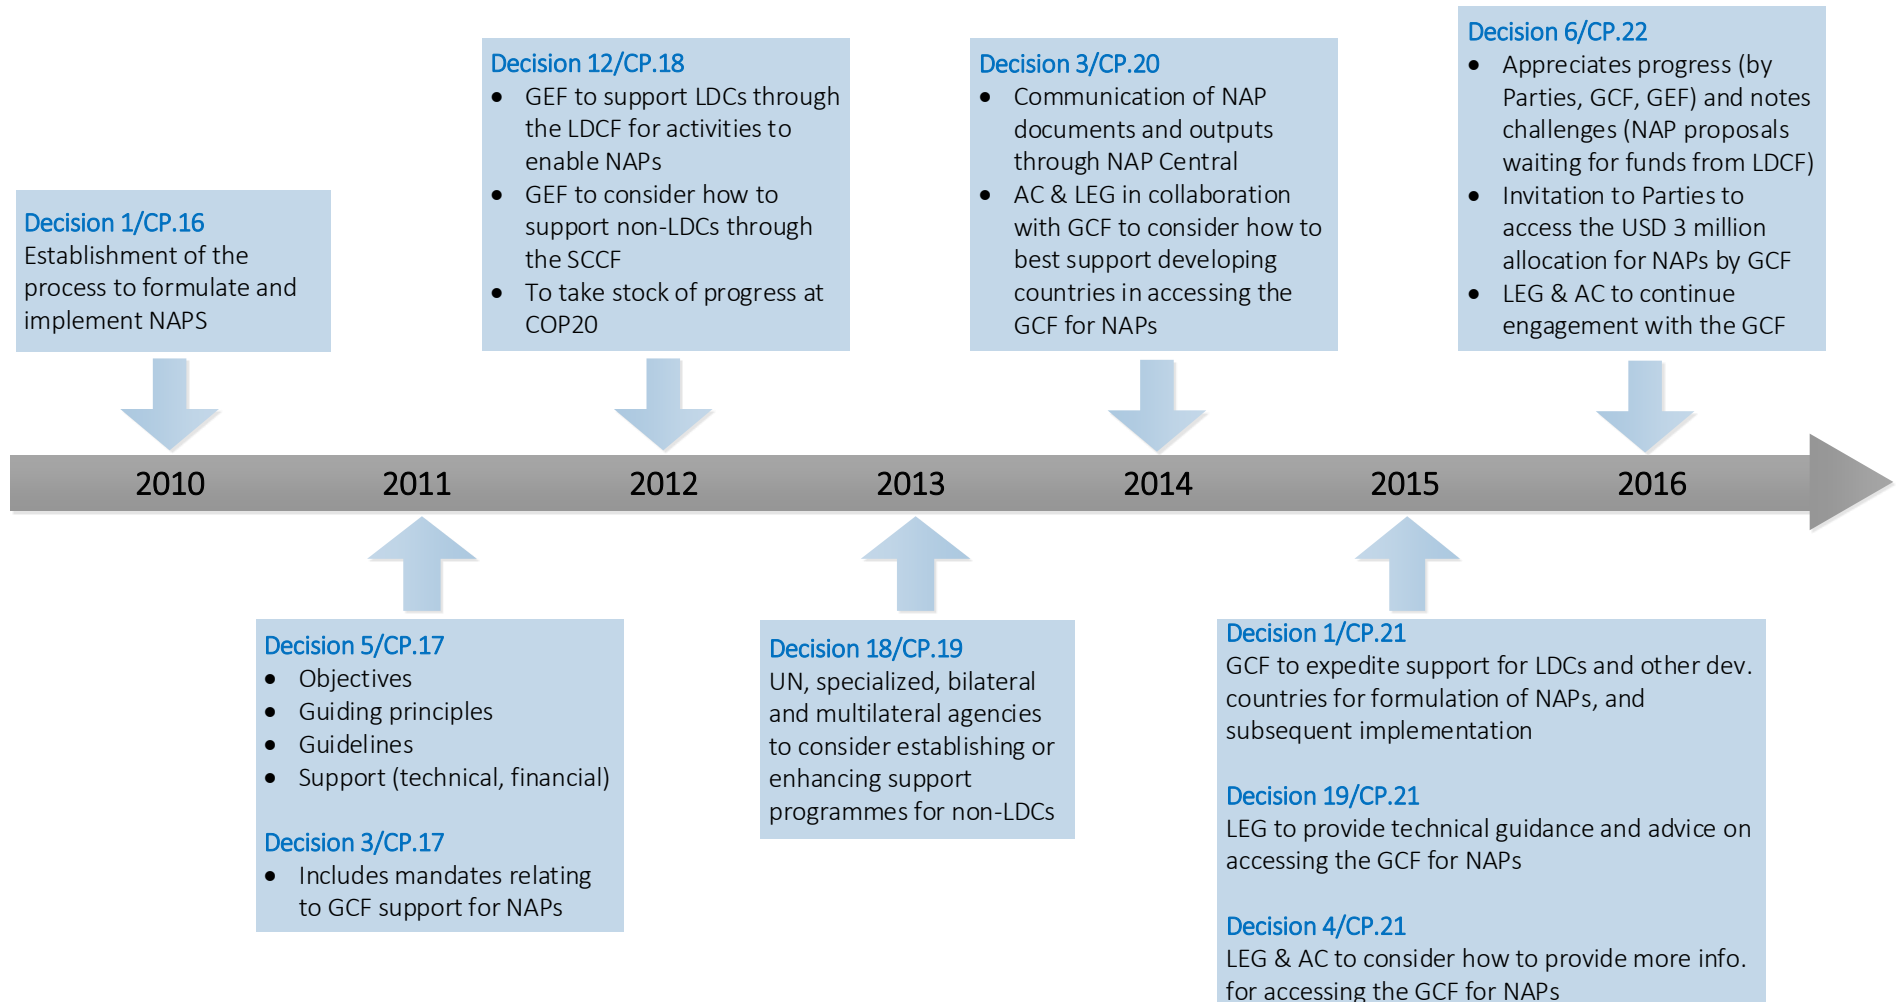

Overview of the process to formulate and implement NAPs: process, 2 objectives, guidelines, the NAP-SDG iFrame

Appraisal and Prioritization of Options for Adaptation Planning
Pacific Regional Training

28 - 31 May 2018, Nadi, Fiji

COP decisions on NAPs

❑ **Objectives of the NAP process (decision 5/CP.17) are:**

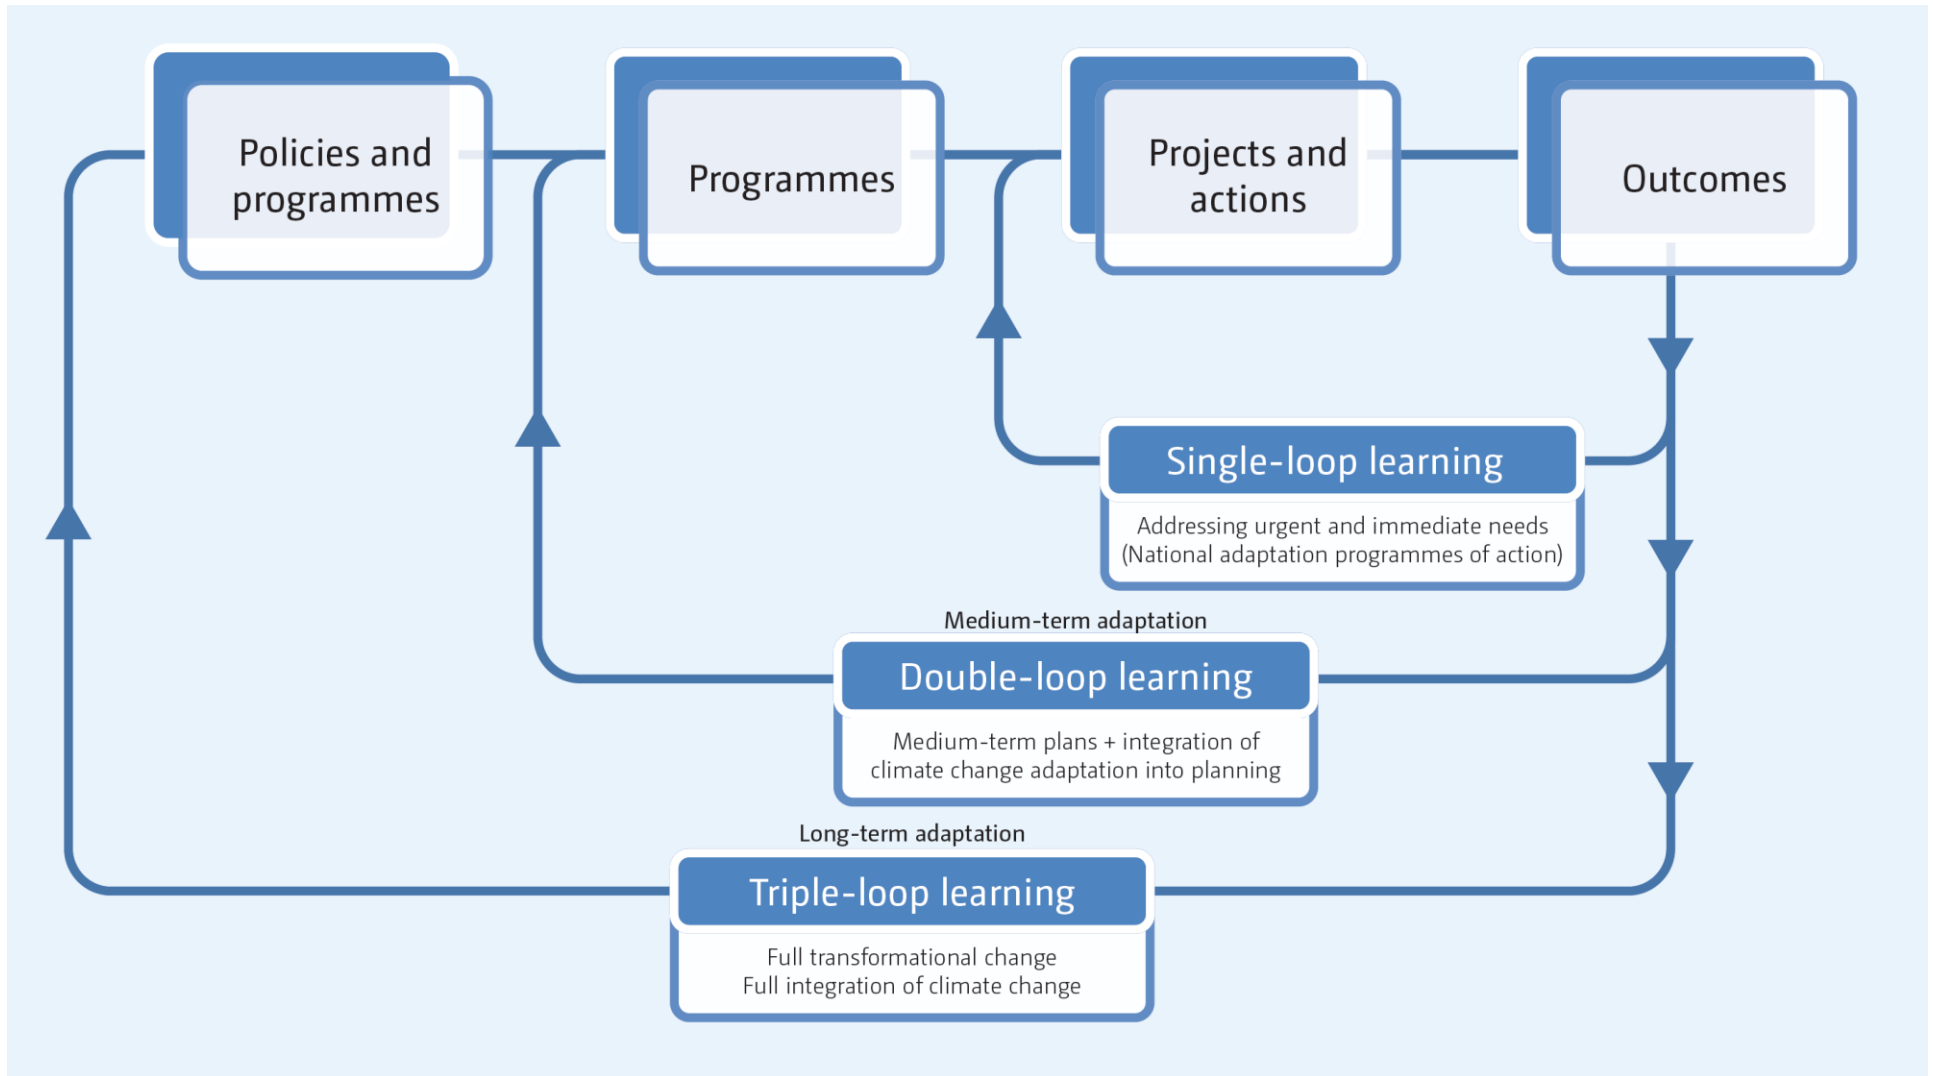

- a) To **reduce vulnerability** to the impacts of climate change, by **building adaptive capacity** and **resilience**;
- b) To **facilitate the integration of climate change adaptation**, in a coherent manner, into relevant new and existing policies, programmes and activities, in particular development planning processes and strategies, within all relevant sectors and at different levels, as appropriate.

❑ **Global goal on adaptation (Article 7 of the Paris Agreement)**

Enhancing adaptive capacity, strengthening resilience and reducing vulnerability to climate change, with a view to contributing to **sustainable development** and ensuring an adequate adaptation response in the context of the **global temperature limit of less than 2°C**.

Learning loops for adaptation (source: LEG BP&LL Vol 3)

Guiding principles for NAPs (decision 5/CP.17)

- Continuous planning process at the national level with iterative updates and outputs
- Country-owned, country-driven
- Not prescriptive, but flexible and based on country needs
- Building on and not duplicating existing adaptation efforts
- Participatory and transparent
- Enhancing coherence of adaptation and development planning

- Supported by comprehensive monitoring and review
- Considering vulnerable groups, communities and ecosystems
- Guided by best available science
- Taking into consideration traditional and indigenous knowledge
- Gender-sensitive

The rationale for appraisal should therefore focus on achieving:

- The two objectives of the NAP process (decision 5/CP.17)
- The global goal on adaptation (Article 7 of the Paris Agreement)
- The guiding principles for NAPs

Guidelines

- ❑ Initial guidelines are contained in [decision 5/CP.17, annex](#)
- ❑ Technical guidelines for the NAP process, developed by the LEG in response to [decision 5/CP.17 paragraph 15](#) are available in [multiple languages](#) at <http://unfccc.int/7279>
- ❑ Supplements to the guidelines are available on NAP Central <http://www4.unfccc.int/nap/Guidelines/Pages/Supplements.aspx>

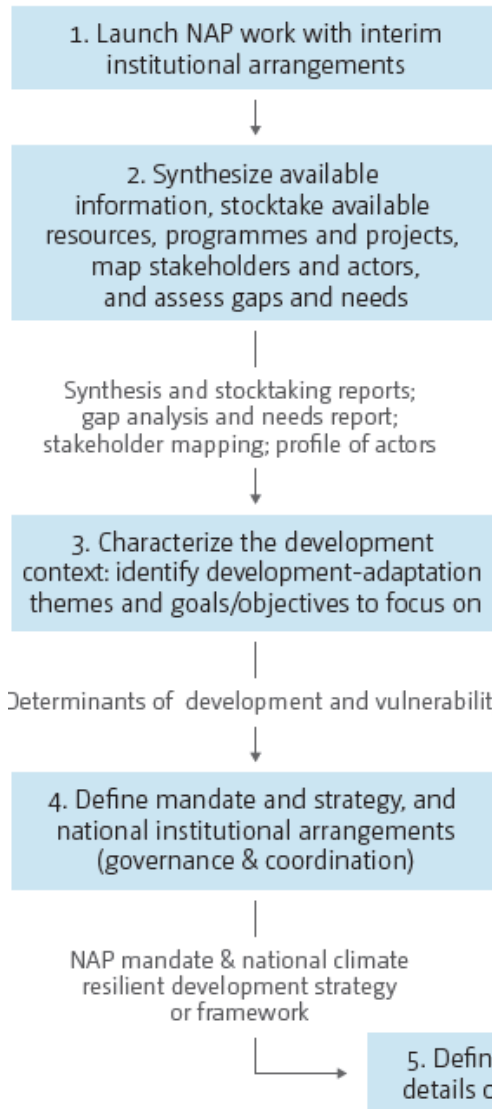

The guidelines provide the basis for the formulation and implementation of NAPs

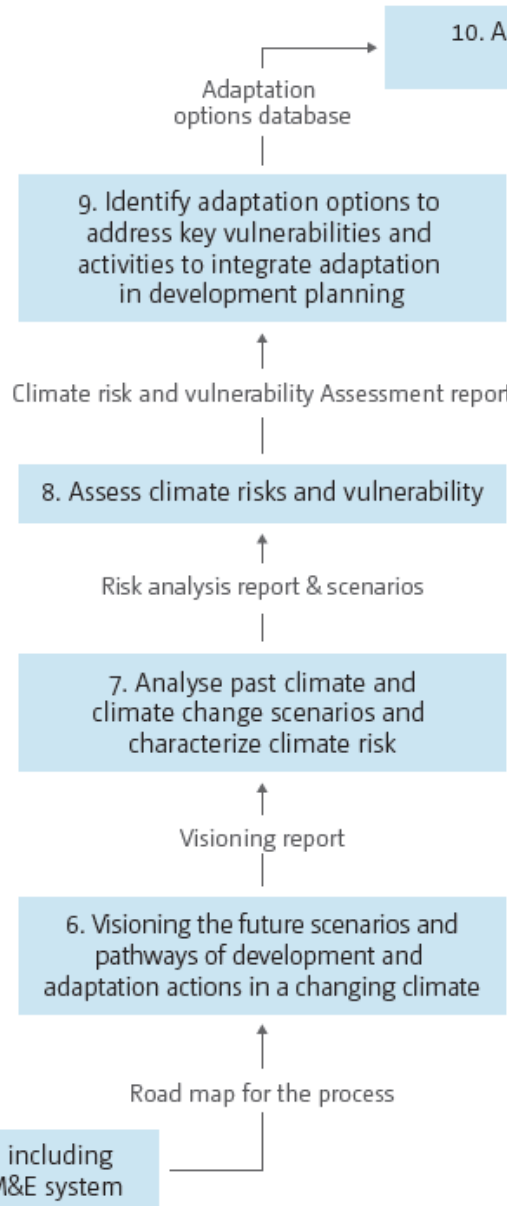

Sample process to formulate and implement a National Adaptation Plan

Element A:

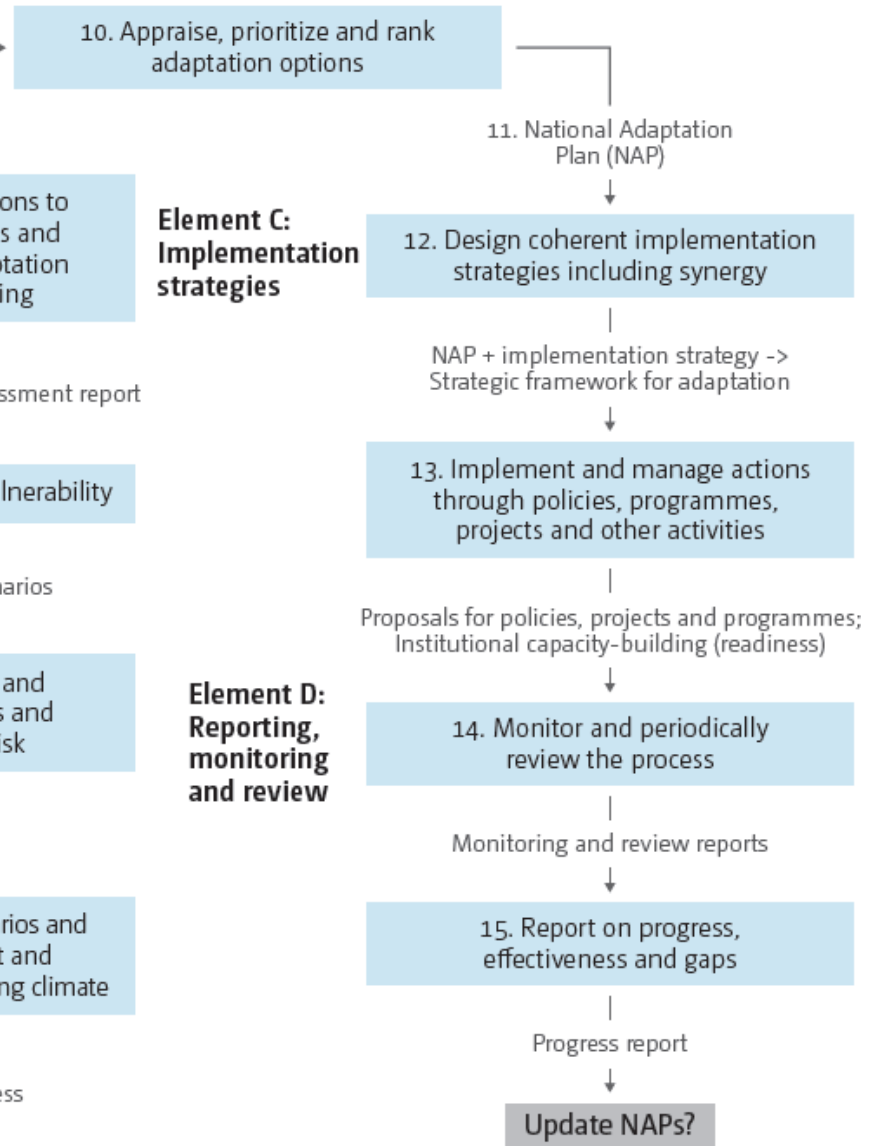

Lay the groundwork and address gaps

Element B: Preparatory elements

Element C: Implementation strategies

Element D: Reporting, monitoring and review

Note: Steps (in boxes) and their outputs that act as inputs for subsequent steps are shown. Abbreviations: M&E = monitoring and evaluation, NAP = national adaptation plan.

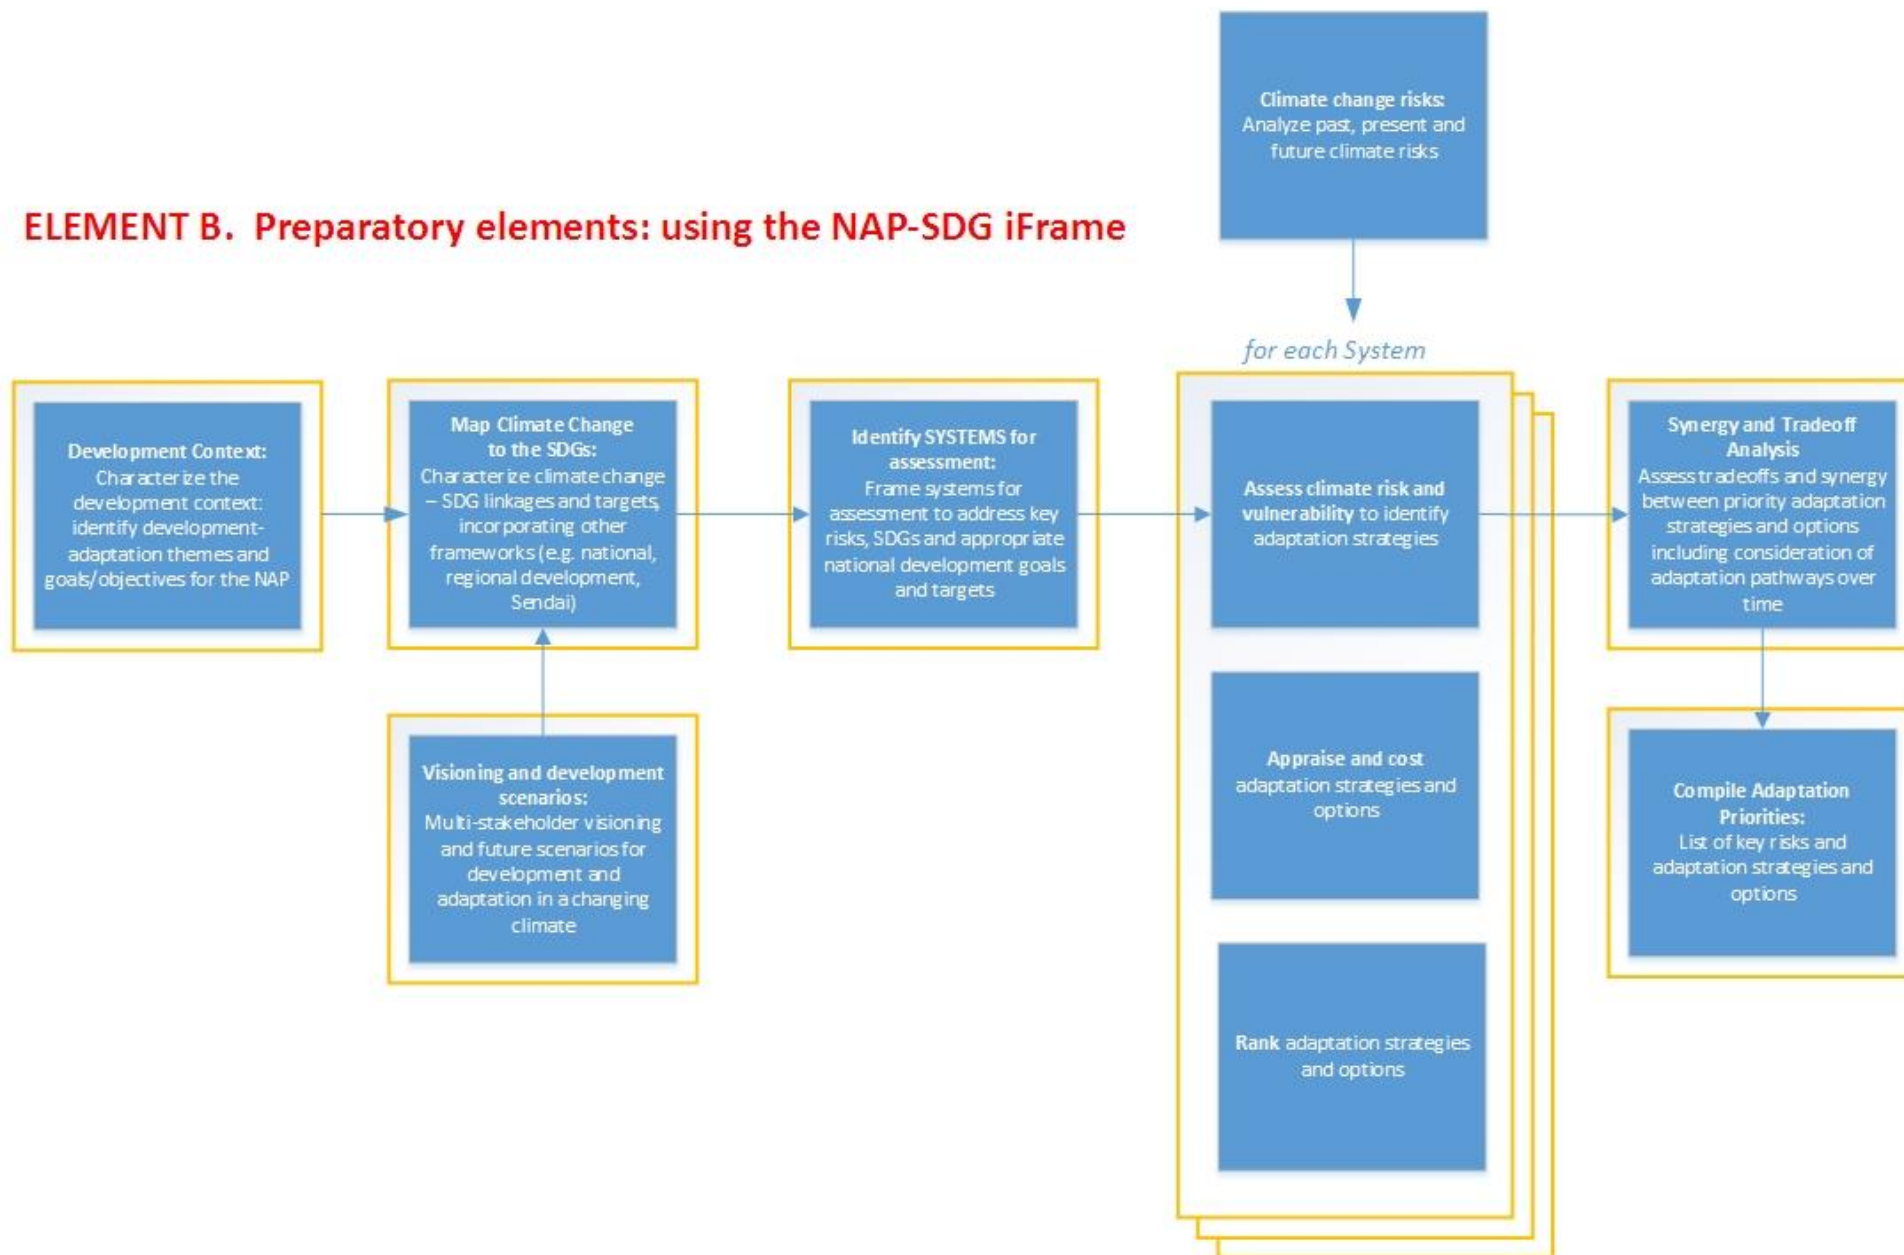

The NAP is the main output of the process, and is designed to be iterative, country-driven, and would provide the substance of the adaptation ambition expressed in the NDCs and Adaptation Communications under the Paris Agreement

Financial support for the formulation of NAPs and implementation of policies, programmes and projects identified therein is well grounded in the GCF

ELEMENT B. Preparatory elements: using the NAP-SDG iFrame

Managing multiple entry points

Sectors (ministries)

- Agriculture
- Water
- Energy
- Health
- Economic planning
- Etc.

SDGs *

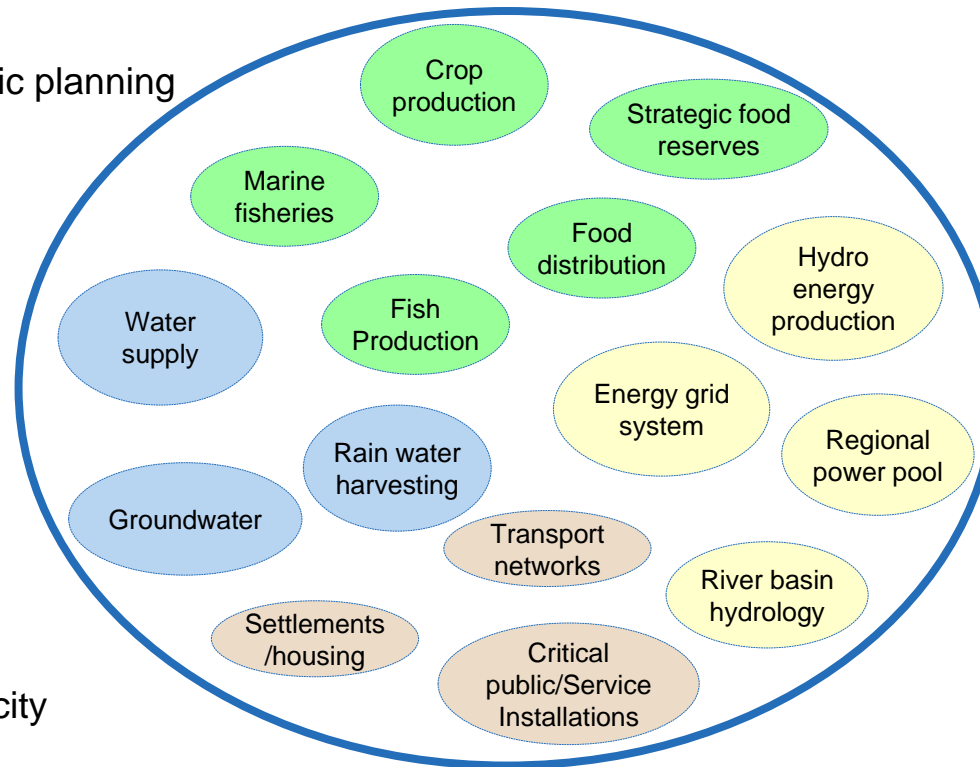

- SDG 1 – No poverty
- SDG 2 – Zero hunger
- SDG 6 – Clean water and sanitation
- SDG 7 – Affordable and clean energy

Climate hazards

- SLR
- Storms
- Excessive rainfall
- Drought/aridity
- Shifting seasons
- Temperature extremes
- Heat waves

Place

- Urban area/city
- National
- Subnational levels
- Community

Actors

- Government agencies
- UN agencies
- Bilateral agencies
- Private sector
- NGOs
- CBOs

National development themes

- Food security
- Water security
- Energy security
- Livelihoods and employment
- Health and nutrition, etc.

NAP Expos

- ❑ Outreach events organized by the LEG, in collaboration with various bodies and organizations, **to promote exchange of experiences and foster partnerships** between a wide range of actors and stakeholders **on how to advance NAPs**
- ❑ Four global events thus far: in 2013, 2014, 2015, 2016 and 2018
- ❑ Two regional NAP Expos in 2017: Uganda; and Republic of Korea

Upcoming events

- ❑ 2019 NAP Expo (global) to take place in the Republic of Korea in April
- ❑ Regional NAP Expos in conjunction with CBA12 in Malawi, 12 Jun 2018

Open NAP Case studies (Open NAPs)

- ❑ Open collaboration with the LEG and a wide range of experts and organizations to offer advice and guidance on technical aspects of the formulation and implementation of NAPs
- ❑ The concept is akin to **crowdsourcing**, mainly to scope and test the best approach depending on specifics and uniqueness of the countries
- ❑ Each Open case looks at the details of a country and works towards a NAP by working through comment steps, using the best available data and methodologies, in collaboration with experts from the country, designed to produce a prototype NAP that can then be expanded over time
- ❑ Earlier experimentation within the Open NAP initiative led to the development of the NAP-SDG iFrame, which solves the problem of which entry point to choose

Highlights

- ❑ **Main repository** of information pertinent to NAPs
- ❑ **NAP documents** and other outputs from the countries
- ❑ **Questionnaire** to submit info for the SBI assessment of progress in NAPs
- ❑ **Global NAP Calendar:** to capture information on the different meetings, training workshops and conferences related to NAPs from all partners
- ❑ **Country profiles**
- ❑ **Partner profiles**
- ❑ **NAP Events online:** NAP Expos, workshops
- ❑ **NAP Tracker:** to capture progress made by each country
- ❑ Etc.

Collection of information on progress made in NAPs

- ❑ To support the SBI assessment of progress made in NAPs
- ❑ Help the LEG (and all partners) to identify:
 - ❖ Progress being made by the countries, and on support
 - ❖ Best practices and lessons learned
 - ❖ Gaps and needs
- ❑ Online questionnaire on NAPs enables countries to provide information on a continuing basis
- ❑ Information will help assess achievement of the objectives of NAPs, progress towards achieving the global goal on adaptation, etc.

Thank you
