Zambia GCF Country Program

GCF Zambia NAP Project (USD 2.18M)

1. Phase 1: Overall NAP
2. Phase 2: Sectoral NAP (water+)

Summary: Experience of Zambia in accessing GCF Readiness Support for NAP

(1) Preparations prior to NAP proposal

- Identify a Delivery Partner (DP)-GWP
- Strengthen relationships between key mandated institutions, UNFCCC FP, NDA, Min of Water
- Stocktake and identify focus areas (7th NDP, NDCs, resource mobilization)
- Engage stakeholders and define roles-stakeholder workshop to introduce the NAP formulation process and GCF Readiness Support
- Develop a roadmap-initial
- Formally nominate GWP as a DP

(2) NAP Proposal Development

- Designated Lead Expert for drafting NAP proposal (DP-GWP)
- Establish Zambia Technical Team
- Draft NAP proposal (DP-GWP)-lots of consultations
- Review NAP proposal (Zambia Technical Team (Climate Change Dept.)
- Review NAP proposal (Zambia National Climate Change Technical Committee)
- Endorse NAP Proposal and submit to GCF (Zambia NDA)

(3) NAP Proposal Review and Approval

- Five rounds of reviews by GCF
- DP (GWP), Zambia Climate Change Department and NDA addressed comments
- Project Management Structure**

A comprehensive NAP for Zambia

Prosperous, Climate Resilient, and Green Economy (Vision 2030)

Climate change vulnerabilities reduced, adaptive capacity built, and resilience improved in Zambia's economic systems, livelihoods, and ecosystems

1. Institutional coordination and collaboration for adaptation planning

(Strengthening institutional coordination for Adaptation)

2. A system of integrating climate change adaptation into plans and budgets

(Climate Change Adaptation in Planning)

3. Prioritizing adaptation actions for sectors & geographic areas

(Prioritizing Adaptation Actions)

4. Capacity for implementing NAP

(Capacity for Adaptation Actions)

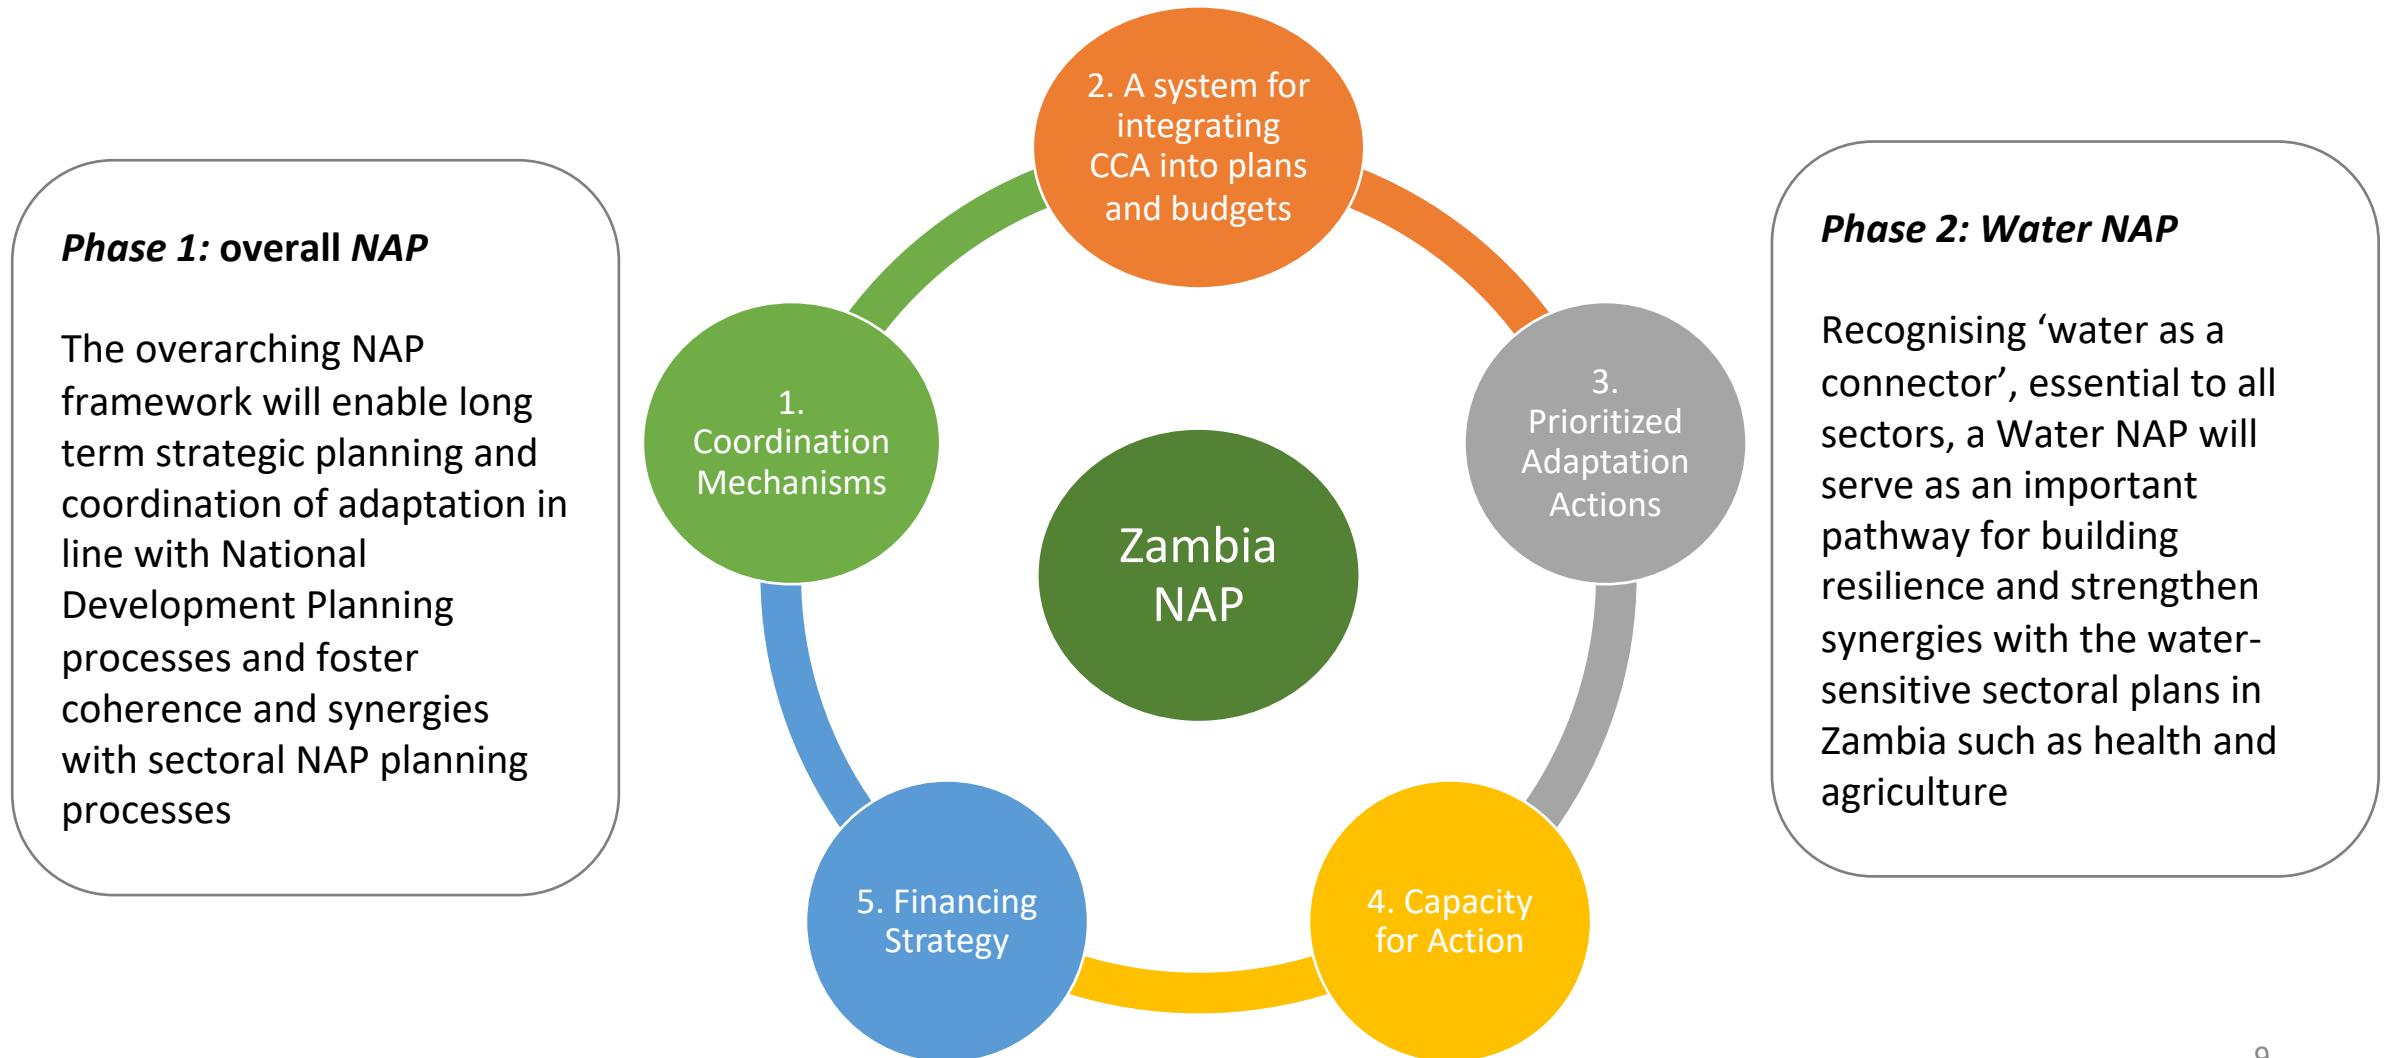

5. Strategy for mobilizing financial & other resources for NAP implementation

(Resources for Adaptation Action)

A comprehensive NAP for Zambia—contributing to project pipeline development for investment

A phased approach-overarching NAP followed by sectoral NAP-Water

Some Lessons

1. **Stocktaking exercise:** review of policies, strategies, plans, programs, institutional arrangement, data and information...The National Climate Change Coordination Structure.
2. **Engaging stakeholders,** mainly the key mandated government organizations- Zambia NDA, UNFCCC FP and Ministry of Water
3. **Raise awareness** on climate vulnerabilities and risks, the NAP formulation process and on the GCF Readiness Support process
4. **Identify focus areas.** Eg. integrating CCA into the 7th NDP, sectoral and sub-national/geographic areas plans
5. **Develop clear Theory of Change** —NAP's contribution towards Zambia's Green Economy and Climate Resilience building agenda
6. **Build on existing programs and systems** ...Zambia's National Climate Change Coordination Structure.
Ensure country ownership and alignment with national processes
7. *Effective partnership between UNFCCC FP, NDA and DP (GWP)*
8. **Follow the GCF Guidelines** in addressing key requirements such as Gender, Private sector; and **Engage GCF** for support while initiating, developing and reviewing proposal

Thank You!
